Hello Lisa-

The Snohomish Health District visited the school today and collected photos (attached).

Some of the photos show PCB waste in storage in the school's transportation shed. Devlin Piplic told the Snohomish Health District inspector that these were the old PCB Fluorescent Light Ballasts.

Possible enforcement issues related to this:

Ex. 5 Deliberative Process (DP)

I asked Amanda if she thought that the Snohomish Health District would recommend air testing to the school. She said that since the letter from the plaintiffs (attached) was not addressed to SHD, but rather to EPA, WA DOH and WA Ecology they are waiting to see what the addressees tell the school to do first.

Ex. 5 Deliberative Process (DP)

I was also wondering if we need to have a written response to this letter? It was addressed to the RA as well as myself, and a woman named Tracy Enger of the indoor environments program at HQ.

Thank you,

Michelle Mullin | PCB Coordinator | pronouns: she, her

Numbered the photos and added captions to help with discussion. Please disregard previous pdf.

Thank you,

Amanda
